54% NSW  
38% VIC

Comparing locations NSW and VIC

**Bigger sample = better insights**  
Our care platform is utilised up to 20x more than traditional EAPs, which means the sheer volume of anonymised data we collect represents a broader cross-section of your people at various stages of their wellbeing - not just those in crisis.

**Compare locations, divisions and teams**  
Dispersed and distributed workforces have different needs and often face different wellbeing challenges. Our dashboard lets you slice and dice trends, insights and analysis to help you respond to the unique needs of your people.

**Look forward not back**  
Say goodbye to lagging indicators and selfreport metrics. Our dashboard is updated in real-time so you know whats happening, when its happening and can take proactive steps to get ahead of tomorrows challenges today.

**“The data adds serious weight. When I say we need to put more into improving the mental health of our team, there’s some good data there to support that. At the end of the day, the more data you’ve got the easier it is to sell a story to someone who’s making the decisions.”**

**Dan Stamp**, Health and Wellbeing Manager, Woolworths NZ
